

WORKSHOP CLAY PLASTER

- Wall design with clay plaster

In this workshop Christian Hahn, a specialist, will present the complete Theory and practice around wall coating with clay plaster.

Afterwards, our participants will be able to independently realize their own clay plaster projects.

Schedule of the day:

- Getting to know the construction site
- Introduction to the properties of clay/loam plasters
- Preparation of clay plaster mortar
- Mixing clay plaster, preparation of the underground
- Getting to know the plastering tools with practical enforcement

Christian Hahn, Skilled construction worker and master craftsman for structural repair, clay worker since 2002.

„Ecological building is a topic in which I know my way around and will gladly give you instructions on how you can artistically design your home with clay plaster using simple means“
